

### COOKING AT 2101 m

At 2100 m water boils at a temperature about 93°C.  
So how long does it take to cook an egg? Fortunately,  
our chefs master the art of high altitude cooking.  
So enjoy our haute cuisine and bon appétit.

### EATING AT 2101 m

Hey, don't forget your carbs. After all, some say that  
carbohydrate is the preferred energy source at high altitude.  
And while you're at it, order an extra bottle of water.  
Being hydrated is really trendy up here.
